

From the President

Dear Sailors, dear friends !

This summer was very good here in Denmark. From time to time more than 30 degrees C. and perfect wind.

But we have one problem and I think it is world wide. We are less sailors every year . To me it looks like a lot of young sailors are dropping out of sailing after the Optimist years. A natural boat to sail after the Optimist is the Europe. I think you can prevent some of this if you let the oldest and biggest Optisailors try your boats as often as they like. When they once have felt how wonderful the Europe dinghy is I hope they never will consider to stop sailing and perhaps they will go on in the Europe Class.

To all the participants in the European and Youth European Championships I will say thank you for a very good effort and many congratulations to all the prizewinners.

Best regards.

Jan Abrahamsen, IECU President

Technical Corner

Proposals

Reduced Toler for Prototypes.

It was voted, but difficult to find in the published papers, that there are reduced tolerances for prototype measuring for the hulls and for masts. These are normally half the tolerances as for the ready product used in racing. If published in the Class Rules it should be done under the number 3.1.1.2. The following numbers should be renumbered.

Simpler Forms for masts and booms.

When those Forms were done, it was ISAF politics to be against Inhouse Measurement. So there is a complicated system of signatures done by the Producer, done by the Producer acting as "Measurer" and finally one signature done by an Official Measurer acting in the responsibility of a National Authority.

Age of used hulls following the Measurement Entry Forms of WC - Vilamoura 2001

Year measured	01	00	99	98	97	96	95	94	93	92	91	90	89	Sum
WINNER	29	21	33	27	8	8	4	1		2	1		1	145
FINESSA	4	3	8	10	5	4	4	3	3	1				45
BOERRESEN	3	7	5	1										16
OSIS	3	6	7	2	1			2						21
OTHERS		1	1	3	2									7
SUM	39	38	54	43	26	12	8	6	3	1			1	234

ISAF politics now changes to be in favour of Inhouse Measurement.

So the Forms could be simplified in a way that the producer signs only one time. Measurement is the responsibility of National Authorities, but we cannot deal with all of them. So we need the Official Measurers signature only for those countries, where the National Authority ask for.

If you consider boats first measured in 2001 as boats one year old, then the average boat is 3.5 years old. If you consider boats first measured in 2000 as boats one year old, then the average boat is 2.5 years old.

Niki Nocke, Iecu Chief Measurer.

2002 KIEL WEEK

- Kieler Yacht Club -
KIEL - Germany 22-25 /26-30 June.

52 men participated representing 11 countries: AUT, BLR, CZE, DEN, FRA, GER, ITA, NED, POL, SLO and SWE.

FROM ITALY

The present moment is in full evolution for the development of the annual sailing activity, and could give the passion of the sailing sport, that I am presiding, still in a recovering phase and restructure of the organization, capable of transmitting a phenomenon into a decisive enlargement as our youngsters are hoping for. It is our responsibility to obtain these expected and awaited results.

As usual, this month we are once more verifying the previous work of the athletes' technical improvement throughout the international events competing against the best foreign skippers.

The annual activity results are still pending, it is time then to consider the Asseuropa's activities to create a tradition to offer as an example to the young sailors coming to our Class.

This is the case of the institution of Awards and Trophies which are granted in the course of the main national events.

The "Trofeo Edo Schichter", biannual challenge, is granted to the first junior of the Asseuropa Championship, in remembrance of the National Vice Secretary, pioneer in introducing the Europe Dinghy in Italy.

Another one, the "Premio Nino Cosentino" is granted each year at the best coach who realised with a particular attention the training of the young sailors. Nino Cosentino, olympic skipper in various classes, is the responsible of the Europe Dinghy Sailing Center in Napoli since 1980.

Recently, has been created the "Trofeo Raimundo Ingangi", a very important Board Member of the Asseuropa. This Trophy is assigned each year to the winner of the 1st National Regatta of the qualifying series determining who will form the team attending the World and Continental regattas.

The institution of such recognition wants to remember the best Asseuropa members who knew how to prepare and choose the most valid program for the skippers of the Class.

This is a patrimony which we do not want to loose as it is the basis of the Europe Class life and an example for our youngsters and not so youngsters, athletes and officers.

Claudio Morana
Asseuropa President

CONGRATULATIONS TO THE NEW 2002 WORLD CHAMPIONS

Sarah Blanck (AUS) and
Sören Johnsen (DEN)

North Sails UK have spent the past 4 years working closely with some of the world's top Europe sailors. Our latest design the SR-3 proved its excellent allround speed at the Sydney 2000 Olympic Games with Shirley Robertson taking Gold.

Here at North Sails we manufacture every sail to fit your mast, therefore we require your mast bend data to ensure the perfect fit first time. Follow the link to our website below for instructions with a diagram to show what details are required.

SR-3 MAINSAIL

Constructed from Contenders 2.99 Polykote sailcloth.

Used to win the 2000 Sydney Olympic Games.

Designed to fit the slightly stiffer masts where the ½ height fore and aft must be under 95mm (using 10kg).

The sail comes complete with Insignia, Numbers, Battens, Tell Tales, Window, Sail Bag, Class Label and Measurement.

SARI MULTALA- 2002 EUROPEAN CHAMPION

E-N: What is your opinion regarding the organisation ashore ?

S.M: It was a good regatta with all the top sailors present. The measurement went amazingly quick and it all went quite smoothly. Only the waiting to get on the water each day was a bit boring.

E-N: And out at sea ?

S.M.: During the Open Week the Racing Committee took their time to practice and managed to run a very good and fair regatta during the Championship.

E-N: How were the climate and wind conditions for this Championship ?

S.M: We had a nice breeze every day. Though it came from the same direction every day, the racing was different. The current also made it a bit more difficult for us. In the end we finally got some sun as well.

E-N: You told us before that you would like less days in the qualifications and more

in the finals. Has this changed ?

S.M: In the Europeans it did not make that much difference for me personally, but generally yes; I think it's more challenging to race in the finals. Now it often happens that the difference in points between sailors only start to establish in the finals.

E-N: Will you keep a special remembrance of this Championship ?

scheduled when the Worlds are not in Europe. Many sailors think that it should be organised anyway, like many other classes. It's a matter of discussion !

And the Youth Europeans. Have you ever been in a Youth event ? It's simply great. Lots of sailing, lots of fun, good competition and the most important: lots of friendship !

It has been all over Europe, normally at the end of July - early August. Don't miss it !

Would you like to organise a championship in 2005 or later ? How should you do ? It's easy...

First you should talk with your Club and tell them that it could be great to have 200 or more Europe Class Sailors there. Ask them to contact the National Europe Class Association and, if necessary, the National Sailing Federation. If everybody agrees, just send us a letter or a fax with an application for a Europeans, or a Youth Europeans, or a World Championship.

The application should be sent at least 3 years in advance of the championship that

S.M: Of course. It just went like a dance. It's always important to think back to the times when everything goes well. If it happens that a regatta starts in a bad way, I can go back to this championship and try to find the things I was doing differently.

E-N: Did you find time for touring ? What did you see ?

S.M: I went to Brugge one day to have a look around. Brugge is a very beautiful and historical city with lots of nice shops: I just fell in love with the place.

E-N: How many countries did you go to for sailing ? Which one or ones you would like to go again?

S.M: I think it is somewhere around 15. I've been to most of several times. Although I've already been to Australia and New Zealand more than ones I'm always keen to go back. I would also like to go to Latin America again. Brazil would be interesting to visit go back to, but I would like to see more of it: Mexico and Argentina for example. I'm also excited about the Worlds in Canada, as I've never been there before. The Worlds 2004 in Italy are also something that I look forward to.

you want to organise, and if possible 6 months before the next AGM.

Also contact the National Class Association all over the world and explain them your candidature. They will all have a vote for the final decision.

Then, during the Worlds coincident with the AGM, you should bring information for the coaches, sailors, Country representatives, etc.... and during the AGM somebody has to make a short presentation of the bid. You should tell us where it would be, when, which facilities do your Club has, launching facilities, club house, showers, restaurants, accomodation and also expected wind and weather conditions.

If your candidature is chosen, your representative should contact IECU and we will inform about all requirements about the site, entries, Notice of Race and Sailing Instructions, etc... The V.P. Racing is the responsible of all this.

That's all ! I can tell you that it is hard work, but it is really worth it !

Paul Depoorter
IECU VP Racing

A GREAT OPPORTUNITY

Have you ever thought about having the best Europe Class Sailors to come to race at your Club ? Why not ? It is very simple !

The International Europe Class Union wants to open the border to new countries, to new Clubs, to new sailors. Until 5 or 6 years ago, the Worlds were nearly always in Europe. Now we have been in North America, South America, Australia and New Zealand. Also Brazil, and in 2002 we go to Canada.

Then, 2003 will be the ISAF combined Worlds in Cádiz, Spain, and finally 2004 in Italy.

Every year, at the AGM, the Nation members will decide about the best candidature for the Worlds 3 years later.

But there are mor Major Events to be organised.

The European Championship normally is

TAKE NOTE

2003 OPEN WEEK AND EUROPEAN CHAMPIONSHIP

Ca'n Pastilla - Palma de Mallorca - Spain
29 June - 11 July 2003

Organizing Authority

Club Marítimo San Antonio de la Playa, Spanish Europe Class Association, Royal Spanish Sailing Federation, Balearic Sailing Federation.

Schedule

Open week 29 June - 3 July
European 4 July - 11 July.

Entries

The entries shall be presented and guaranteed by the respective National Class Association until 01 May 2003, by post/fax/e-mail to:
